

Connor Gardiner

Analytical • Reliable • Collaborative

Vancouver, BC • relocating to GTA for co-op start • (647) 856-4007 • connorrgardiner@gmail.com • [GitHub](#)

Qualifications

- Deployed React portfolio to Vercel
- Built a WPF calculator in C#/.NET with validation and error handling
- Wrote SQL in Oracle/MySQL for joins, grouping and summaries
- Soft skills: communication, teamwork, time management, problem solving

Professional Summary

Software Engineering Technology co-op student with hands-on projects in Java, C# and JavaScript. Experience with React, WPF/.NET, SQL (Oracle, MySQL), REST APIs, Git and GitHub, Docker and Linux. Strong in OOP, debugging, unit testing and CI/CD with a recent Vercel deployment.

Technical Skills

Languages: Java, C#, JavaScript, Python, SQL, HTML/CSS

Frameworks: React, .NET, Node.js, Express

DB/Tools: Oracle, MySQL, MongoDB, PL/SQL, Git/GitHub, Linux/Unix, VS Code, IntelliJ, Docker

Education

Software Engineering Technology (Co-op) Advanced Diploma

Jan. 2025 – Present

Centennial College, Toronto, ON

Expected graduation: Dec. 2027

Selected courses: Java Programming, Advanced Database Concepts,

Web Application Development, C# Programming, Software Systems Design, Unix/Linux OS

Projects & Labs

WPF Calculator C#/.NET

- Built a four-function calculator with clean WPF XAML layout and right-aligned display
- Added input validation and clear errors including division-by-zero and full clear (C)

React Portfolio Website (React, Vite, Tailwind)

- Created a six-page portfolio with routing, reusable components, and responsive layout
- Deployed to Vercel with CI from GitHub, basic accessibility checks and redirect contact form

Java OOP Labs

- Implemented small apps (Student registry, Bank Account, Singer) using classes and collections
- Practiced problem solving with loops, conditionals, and method decomposition

Experience

Civil Construction Labourer

Mar. 2024 – Apr. 2025

Bel Contracting, Burnaby, BC

- Coordinated with crew leads to hit daily milestones while following safety procedures and checklists
- Communicated clearly in fast-moving environments and flagged risks early to keep work on schedule
